DETAILED ACTION

Claim Objections

1. Claims 21 and 23 are objected to because of the following informalities: As for claim 21, the expression “the body” inline 1 has no proper antecedent basis. As for claim 23, the words “a body” in claim 23, lines 2-3 should be -- the body-- since it refers to the same body introduced in base claim 21, line 1. Appropriate correction is required.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claim 24 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 24 recites “at least one blade having the same thickness as the body”. However, it is not clear from the claim how the thickness of the blade and the body is defined or measured.

Claim Rejections - 35 USC § 102

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

2. Claims 21 and 22 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Bailey et al (US 6,098,717) (see “slotted expandable centralizer” 18 which has “slots” 26).

Contrary to applicant’s argument, the “casing” is not a component of the claimed apparatus. The recitation regarding the “casing” in the preamble is a limitation of use and is

Art Unit: 3672

given no patentable weight. In any event, Bailey et al disclose that the liner 14 may be casing (column 3, lines 18-20).

3. Claims 21 and 22 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Lauritzen (US 6,662,876).

The claimed structure reads exactly on the reference's structure when members (420a-c and 520a-c) are considered as the "slotted expandable centralizer" as recited.

Contrary to applicant's argument, the "casing" is not a component of the claimed apparatus. The recitation regarding the "casing" in the preamble is a limitation of use and is given no patentable weight. In any event, the claimed "casing" does not distinguish from tubular or liner 540 of Lauritzen.

Allowable Subject Matter

4. Claims 1-4 and 6-20 are allowed.

5. Claim 23 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 3672

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
